WINTER IN CENTRAL IOWA

Living in Iowa, we all know how unpredictable our weather can be. Although our average annual snowfall is approximately 37 inches, we can only rely on the most current meteorological information to predict our future needs.

With a mostly rural population and several types of streets, the City takes a serious approach to the problems associated with snow and ice control.

NORMAL SNOW CONDITIONS

Our fleet of snow fighting equipment is prepared before snow is forecast. The City is fortunate to have a dedicated staff capable of operating the multiple pieces of equipment used to fight snow and ice. Our Department will do our best to keep streets open for safe winter travel.

The City's present snow control policy establishes the priority for snow control on streets in the following order:

FIRST PRIORITY: The Downtown areas and Greene Street - the minimum network which must be kept open to provide a transportation system for police, fire, and rescue squad units.

SECOND PRIORITY: All designated Snow Routes.

THIRD PRIORITY: Secondary Roads and Cul-de-Sacs.

FOURTH PRIORITY: Alleys and City parking lots.

EMERGENCY SNOW CONDITIONS

Snow Emergency Parking Ban Declaration:

During snow events, when plowing will be necessary, the City will implement an Emergency Parking Ban. All vehicles must be removed from all City streets when the parking ban is in effect. Vehicles parked in the street may be fined $25, towed, or both. A snow emergency parking ban shall continue from the beginning of snowfall to a period twenty-four (24) hours after snowfall has ceased. You may park on the street after this 24-hour period has ended. To help our operators perform their plowing duties in a safe and efficient manner, we ask that residents park elsewhere when snow begins to accumulate. You may call City Hall to find out if the parking ban is in effect.

Citizen Responsibilities

Snow can be beautiful, but it can also create hazards. When residents fail to clear their sidewalks, the results can be treacherous. We need your help in protecting pedestrians from possible injury.

Residents are required by ordinance to clear sidewalks (including those crossing alleys, crosswalks and driveways) within 24 hours of the end of a storm. Please pile the snow on your yard, not in the street. If your sidewalk is icy, you may correct the hazard by applying a heavy coat of sand or de-icer. A helpful hint for residents - clear your sidewalk after the snowplows have finished plowing to the curb.

Mailboxes and Fire Hydrants

The City will plow the snow within the confines of curb line to curb line of a street. During heavy snowfalls there may be times when City plows cannot physically place the snow onto the right-of-way. During these times the resident will be responsible for clearing the snow around their mailbox to assure delivery of mail. It is also the resident’s responsibility for assuring that the face of their mailbox is properly installed behind the curb line and able to withstand snow cleaning efforts by the City; the face should be six (6”) to eight (8”) inches behind the back of the curb, the mailbox bottom 48 inches higher than the street. During preliminary routine inspections, City Staff will notify citizens when potential problems are observed with the location of their mailbox. It will be the responsibility of the residents to properly relocate the mailbox prior to winter plowing operations. The City will not be responsible for damage to mailboxes which have not been relocated after the notification has occurred. It is also a good idea to clear snow from around any fire hydrant that may be in your yard. This will help our public safety crews more easily identify them in the case of an emergency.

Frequently Asked Questions About Snow Control

Can’t the City Remove the Snow They Put in My Driveway?

When you consider the large number of driveways in the City, it would be costly and time consuming to use additional people and equipment to perform this service. Our primary duty is to open and maintain the roadway system.

Why Do the Ploows Go So Fast and Throw Snow on My Sidewalk?

Plows need to go a minimum speed in order to throw the snow off of the roadway onto storage areas in the public right-of-way. We ask our operators not to throw the snow any further than necessary. In some cases however, the sidewalks may be too close to the curb to avoid getting snow on them.

What Can You Do to Get the Public to Shovel Their Sidewalks?

City ordinance requires property owners to shovel their sidewalks. We try to follow up on all sidewalk complaints, but like parked autos, it takes a number of people to enforce them. If you do see an unshoveled walk that is dangerous to pedestrians, please call 993-4525.

Why Can’t Your Operators Get All of the Packred Snow Off the Streets?

The Public Work’s Department uses snow plows that can be mounted on the same trucks we use during the summer. These plows have the tendency to ride on top of densely compacted snow. If traffic has driven on streets before they are plowed the compacted snow can be extremely difficult to remove.

Can I Shovel / Plow / Blow the Snow From My Sidewalk or Driveway Into the Street?

No. This can create hazardous conditions in the street, and we have an ordinance prohibiting it.
I DIDN’T KNOW YOU WOULD BE PLOWING
AND I THINK IT’S UNFAIR THAT I GOT A
_TICKET OR TOWED.
We do our best to publicize the Emergency Parking
Ban. Before the winter season starts, information
regarding this ordinance is placed in the City of Adel
Newsletter and other media outlets and on brochures
that are mailed out to all households in the monthly
water bills. When the ban is placed in effect, we will
try to contact local TV and radio stations.

WHY DON’T YOU JUST TOW THE CARS OFF
THE STREET THAT DON’T OBSERVE THE
SNOW EMERGENCY PARKING BANS?
Towing and ticketing are labor intensive and time
consuming. Our goal is to have a safe roadway system,
even in the winter. We would prefer not to have to
write any tickets or do any towing. The $25 fine shows
people how serious the City is about efficient snow
removal.

CAN I PARK ON THE STREET?
Yes, but when snow is forecasted it’s best to plan ahead
and have your vehicle off the street before the snow
begins to accumulate. It is difficult to do a good job of
removing snow when vehicles are parked on the street
during a snow event. Maneuvering a snow plow in and
out between parked cars is dangerous and leaves both
the City and individuals open to more damage to
vehicles and equipment. For cars that must be
d park Downtown, please seek off street parking in
either the Public Safety Building Parking lot or the
City lot North of City Hall.

WHO CAN I CALL IF I’VE GOT A COMPLAINT
OR A REQUEST?
For normal snow plowing or de-icing operations call
Public Works at 993-3769. For unshoveled sidewalks
call Code Enforcement at 993-4525. All emergency
requests including those after normal working hours
should go to the Adel Police Department at 993-6723
or the Dallas County Sheriff’s Office at 993-4567.

I’D LIKE TO MAKE A SUGGESTION ON SNOW
CONTROL: TO WHOM CAN I SEND IT?
We’ll be happy to consider your suggestions. Send
them to the Adel Public Works Department; 301 South
10th Street, Adel, IA 50003, call us at 993-4525, or go
to our website www.adeliowa.org to reach anyone of
our staff.

WHEN WILL MY STREET BE PLOWED?
The City has established priorities for the various
classifications of streets. Main arterial streets that must
be kept open to provide a transportation system for
emergency vehicle units will try to be kept open at all
times. Depending on storm conditions, crews may have
the opportunity to start plowing some residential streets
before the storm ends. The City’s goal is to have all
paved streets completely plowed within 24 hours after
the storm has ended. The Downtown area will be
plowed on a first priority basis and then final clean-up
will occur the next morning.

WHY DOES THE CITY SOMETIMES SPRAY
LIQUID MATERIAL ON THE ROAD BEFORE
AND DURING A STORM?
The City of Adel takes a pro-active approach to storm
management. This process is called anti-icing. Applying
chemical de-icers before and during a storm
can prevent the snow and ice from bonding to the
pavement. This allows crews to remove snow from the
pavement more effectively and reduces the amount of
chemicals needed to maintain a safe pavement surface.

Warning
City Ordinance 69.10
No person shall park, abandon, or leave
unattended any vehicle on any public street or
alley during any snow removal period. The
snow-parking ban shall continue from the
beginning of snowfall to a period twenty-four
(24) hours after snowfall has ceased.

The penalty for a violation under City
Ordinance 69.10 is $25.00.

If your vehicle is not moved during the snow-
parking ban under City Ordinance 69.10, it will
be towed away at the owner’s expense.
