

Water Main Improvements Project - Public Notification

5th Street – Court Street to Cottage Street

Dear Landowners and Residents,

The City of Adel is actively investing in important improvements to its water, sewer, stormwater and roadway infrastructure throughout the community.

One of these improvements includes construction of water main along the west side of 5th Street between Court Street and Cottage Street. Please refer to the map on the back of this notification which identifies the location and approximate construction limits for this portion of the construction project. Water main construction will then continue south along Cottage Street/Old Portland Road to Meadow Road.

Work is anticipated to begin shortly, with the estimated completion of the entire project by November of 2021. The construction contractor has begun preparing the area for construction. During construction, temporary traffic disruptions and temporary street closures and/or delays are anticipated. Areas of sidewalk removal and replacement will also occur within the scope of the project. In addition, the contractor and City will be working with landowners immediately adjacent to the construction alignment to maintain postal and garbage/recycling collection services during construction of the project.

This notice is intended to provide you updated information on the City's plans for these important water system improvements. As the project progresses, the City will provide follow up notifications concerning this work.

If you have any questions, please contact the City of Adel at 515-993-4525.
